— EMMY® NOMINATED —

My Mother's Eyes

*A survivor's testimony, carried across generations
and animated into memory.*

69th Annual New York Emmy® Awards — 2026 Nomination

Category: Teen (13–19) — Short Form or Long Form Content

We are profoundly honored to share that *My Mother's Eyes* has been nominated for a 2026 New York Emmy® Award. This recognition belongs to a story that took years to tell — and to the survivor whose voice made it possible.

My Mother's Eyes tells the survival story of **Lusia Milch**, drawn directly from her own testimony given over many years. What began as her spoken account was shaped into a beautifully filmed segment and then animated frame by frame — a work of patience and care that turns lived memory into something students and audiences can truly feel. Part of an ongoing series, it is as effective as it is moving.

WHERE IT LIVES

LEDI Center Shown to students as part of our education work	Lappin Foundation Brought directly into schools	PBS Aired nationwide
---	--	------------------------------------

A production of the Dr. David M. Milch Foundation, the Lappin Foundation, and BeTerrific!!/WunderArt.

*To Lusía, and to everyone whose testimony, vision, and craft
made this possible — thank you. Stories like this matter, and now
more people will see it.*
